

To our customers,

02.02.2026

## **Declaration of conformity for POP** (Persistent Organic Pollutants) according to Directive 2019/1021/EU

Persistent organic pollutants are compounds that remain in the environment for a long time when released, accumulate in the food chain, can be transported long distances in the environment and can cause long-term damage to human health and the environment. Chemicals that have been identified as POPs include:

- Pesticides (such as DDT)
- industrial chemicals (such as polychlorinated biphenyls, which were widely used in electrical appliances)
- unintentional by-products resulting from industrial processes, decomposition or incineration (e.g. dioxins and furans)

We hereby confirm, based on our knowledge and information from our suppliers, that the products supplied by us do not contain any substances in accordance with Regulation (EU) No. 2019/1021 (POP Regulation).

Yours sincerely,

LAMTEC GmbH & Co. KG
