## **RoHS-3 (2015/863) Declaration of Conformity**

Dear Sir or Madam,

If our products comply with the requirements of the RoHS-3 Directive (Restriction of Hazardous Substances), you will find confirmation of this in the respective CE declarations of conformity in the operating instructions.

For products that do not meet the requirements of the RoHS-3 Directive, the exception applies in accordance with Article 2 (4, e): Use in large-scale fixed installations, which are therefore exempt from the directive and may be used in such installations. Such products are not intended for any other use.

RoHS-3, also known as Directive 2015/863/EU, is an extension of the original RoHS Directive. It includes additional restrictions on certain hazardous substances in electronic and electrical equipment.

The restrictions apply to the following substances:

- Lead (Pb)
- Mercury (Hg)
- Cadmium (Cd)
- Hexavalent chromium (Cr(VI))
- Polybrominated biphenyls (PBB)
- Polybrominated diphenyl ethers (PBDE)
- Di(2-ethylhexyl) phthalate (DEHP)
- Benzyl butyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

We are committed to offering our customers safe and environmentally friendly products. Our company conducts regular internal audits to ensure compliance with the RoHS-3 directive. We work closely with our suppliers to ensure that the components and materials they supply also comply with RoHS-3 requirements.

If you require further information or specific evidence of RoHS-3 compliance for our products, please do not hesitate to contact us.

Yours sincerely,

**LAMTEC GmbH & Co. KG**
