## Declaration: PFAS Reporting under TSCA

The United States Toxic Substances Control Act (TSCA) is a federal regulation that enables the Environmental Protection Agency (EPA) to comprehensively manage chemicals in US commerce. This includes the reporting requirement under TSCA Section 8(a)(7), which applies to perfluoroalkyl and polyfluoroalkyl substances (PFAS). TSCA requires US manufacturers of all PFAS chemicals, including PFAS that are by-products of manufacturing, to report certain information. PFAS imported into the United States must also be reported, regardless of whether they are imported as such or as part of an article.

PFAS are a large and complex group of chemicals; the TSCA PFAS requirements apply to all types of PFAS used in US commerce, as defined in the EPA's Chemical Data Reporting (CDR) database. For more information, visit the EPA's TSCA PFAS webpage.

We hereby provide you with information in connection with the U.S. Environmental Protection Agency (EPA) and the Toxic Substances Control Act (TSCA) Section 8(a)(7); this notification applies to the following products from LAMTEC GmbH & Co. KG

Product	CAS Number	Concentration (%)	Where in the product can the substance be found?
650R1000	9002-84-0	0.5 %	Cable Sleeve PTFE

Yours sincerely,  
LAMTEC GmbH & Co. KG
