TSCA - Declaration of compliance

Dear Sir or Madam,

Under the Toxic Substances Control Act (TSCA), we have received information that the Environmental Protection Agency (EPA) is authorized to restrict the use of certain substances

Pursuant to the Frank R. Lautenberg Chemical Safety for the 21st Century Act, signed into law on June 22, 2016, we are informed that TSCA Section 6(h) requires the EPA to take action on persistent, bioaccumulative and toxic (PBT) chemicals to restrict the use or release of these substances in various industries In order to minimize potential impacts and risks to the environment and human health

The EPA, which is considered the equivalent of the European Chemicals Agency (ECHA), issued final regulations on January 6, 2021, and these came into force in March 2021

The following PBT chemicals are affected:

- Decabromdiphenylether (DecaBDE), CAS 1163-19-5
- Phenol, isopropyliert, Phosphat 3:1 (PIP 3:1), CAS 68937-41-7
- 2,4,6-Tris(1,1-dimethylethyl)phenol (2,4,6-TTBP), CAS 732-26-3
- Hexachlorbutadien (HCBd), CAS 87-68-3
- Pentachlorbenzothiol (PCTP), CAS 133-49-3

At LAMTEC Meß- und Regeltechnik für Feuerungen GmbH & Co KG, we are strongly committed to environmental and health safety.

This is an important aspect of our corporate philosophy, and we do everything we can to develop and offer environmentally friendly products and solutions that are harmless to health.

In this context, we strictly adhere to the control and restriction measures for chemicals prescribed by laws and authorities. To the best of our knowledge, none of the chemicals listed above are contained in our products.

Yours sincerely,

LAMTEC Meß- und Regeltechnik für Feuerungen GmbH & Co KG
