LAMTEC is mourning Manfred H. Gebauer – LAMTEC Support Italy

LAMTEC Management and the whole LAMTEC Team worldwide are deeply affected that we all have to say farewell to Manfred H. Gebauer. We feel this painful loss with his family. Mr. Manfred H. Gebauer passed away on 21 March 2019 and leaves a deep and painful gap.

We look back with gratitude and full recognition on his professional achievements and a very pleasant, friendly and universally appreciated person, colleague and companion.

Manfred H. Gebauer, a very experienced expert in combustion technology, has been working for LAMTEC since the beginning of 2017 as technical support on site in Italy.

Manfred H. Gebauer has been working closely with LAMTEC for many years as part of his work for a well-known Italian burner manufacturer.

After reaching retirement age in January 2017, Manfred H. Gebauer gladly accepted the LAMTEC offer to support LAMTEC technically on a freelance basis in Italy.

Manfred H. Gebauer was well versed in the field of combustion technology. After completing an apprenticeship as a measurement and control technician, followed by the study of electrical engineering, Manfred H. Gebauer had been working in different positions and different companies in project planning/engineering, as well as maintenance and service of industrial plants and furnaces.

He had extensive experience with the LAMTEC product range, be it in the area of project planning, or on-site with troubleshooting.

Manfred H. Gebauer rendered the LAMTEC family and our customers and partners in Italy excellent services. LAMTEC Support Italy will always be associated with his name.

The LAMTEC family mourns the loss of a valued colleague, long-time companion and wonderful person - Manfred H. Gebauer.
