

# LAMTEC CMS MIXED COMBUSTION TRAINING

Whether it be a standard industrial combustion or complex process application, LAMTEC's revolutionary CMS Burner Management System sets new standards in control automation. With the revolutionary burner and plant control system. CMS means "Combustion Made Simple".

This 2-day advanced training course is for anyone who has already attended a CMS course and would like to learn about more complex process application of mixed firing.

The CMS mixed firing training course focuses exclusively on the topic of mixed firing. A small part of the course serves as a refresher.

**Prerequisite for participation in this course is a previously attended CMS training.**

**DATE:** 21.-22. July 2026

**START / END:** 8:30 am / 5:00 pm

**Please note:** Admission at 8:00 am at the earliest!

For organizational reasons, we ask participants to register at our reception desk on the first day of training.

## CONTENT

Small part refresher CMS

Mixed combustion

- Fuel air ratio setting with 2 fuels
- Fuel air ratio setting with up to 4 fuels
- Combustion management process for mixed firing systems

## TECHNICAL REQUIREMENT

- Laptop with Windows operating system
- Administrator rights to install drivers and software required for training.
- **possibility to change IP address**
- **possibility to adjust the firewall settings**
- 2x free USB interface
- 1 free Ethernet interface (possibly via USB ethernet adapter)
