

LAMTEC CMS TRAINING

Whether it be a standard industrial combustion or complex process application, LAMTEC's revolutionary CMS Burner Management System sets new standards in control automation.

The CMS training course consists of 2 modules. Module 1: Day 1-3
Optionally bookable is module 2 Mixed firing for day 4.

This 4-day Combustion Management System (CMS) training focuses exclusively on this revolutionary burner and plant control system. CMS means "Combustion Made Simple".

DATE: 06.-09. October 2026

START / END: 8:30 am / 5:00 pm

Please note: Admission at 8:00 am at the earliest!

For organizational reasons, we ask participants to register at our reception desk on the first day of training.

CONTENT

Module 1: Day 1-3

- Scope of functions
- Comparison LAMTEC Burner Control ETAMATIC
- PC Software
- Module management
- IO-Matrix
- GUI/UI
- Programming curves
- Digital inputs and outputs
- Analog inputs and outputs
- Setting parameters
- LT3 / LT3-F

Module 2: Day 4 Optional

Prerequisite for participation in Module 2 is participation in Module 1

Mixed combustion

- Fuel air ratio setting with 2 fuels
- Fuel air ratio setting with up to 4 fuels
- Combustion management process for mixed firing systems

TECHNICAL REQUIREMENT

- Laptop with Windows operating system
- Administrator rights to install drivers and software required for training.
- **possibility to change IP address**
- **possibility to adjust the firewall settings**
- 2x free USB interface
- 1 free Ethernet interface (possibly via USB ethernet adapter)
