

LAMTEC LT4 MEASUREMENT TRAINING

LAMTEC sensors and measuring systems ensure the correct measurement for optimum combustion. Our measuring systems can be used for measuring exhaust gas from virtually all fuels.

The one-day training provides an in-depth look at the maintenance and commissioning of the fail-safe exhaust gas measurement system LT4/KS1D.

DATE: 21.October 2026

START / END: 8:30 am / 5:00 pm

Please note: Admission at 8:00 am at the earliest!

For organizational reasons, we ask participants to register at our reception desk on the first day of training.

CONTENT

- SIL / Type-tested measurement systems
- SIL classification for the LT4
- Special considerations for different fuel types
- Compliance with the Safety Manual
- Commissioning / Programming
- Fault analysis
- Troubleshooting
- Handling of spare and wear parts in accordance with the Safety Manual
- Function test unit (FTU)

TECHNICAL REQUIREMENT

No technical aids are required to take
