YOUR PATH TO LT4 AUTHORISATION

The compact intensive training for maximum independence in LT4 projects. From an overview of LAMTEC measurement systems and the basics of measurement technology to safe commissioning and maintenance.

Successful completion of this training authorises participants to independently commission and maintain the LT4 system, thus ensuring the continuation of the safety certification.

TRAINING CONTENTS

- Basics and overview of LAMTEC measurement systems
- SIL & standards at a glance
- LT4 product overview
- Function Test Unit (FTU)
- LT4 / FTU commissioning & fault diagnosis
- Multiple-choice test

DATE	TIME	ADMISSION	REQUIREMENTS
19.10.2027	09:00-16:00	from 08:00	No technical equipment required

Please check in at LAMTEC reception on the day of training.
